FOR IMMEDIATE RELEASE

## **EOTech A65RT**

*Used By Special Forces and Law Enforcement Organizations*

COLUMBUS, Georgia, March 2, 2010 – The EOTech 512.A65RT offers fast target acquisition and true 2-eyes open shooting along with a rugged durability not seen in any other product on the market today. These sights are built in the USA and are tested in lifesaving situations around the globe. Used extensively by Special Forces and law enforcement organizations, the EOTech Holographic Weapon Sight is now available in Realtree<sup>®</sup> APG<sup>™</sup> camo for the avid outdoorsman. When hunting, speed is essential and EOTech's traditional 65MOA ring and 1MOA dot reticle make target acquisition easy. The rectangular window provides an incredibly large field of view, and the flat glass lenses with anti-reflective coating guarantee that it's not the optic that gives away your position in the field. These features and many others make the EOTech 512 the ideal optic for deer, turkey, duck and predator hunting.
